RECENT ADVANCES & INNOVATIONS

  
INTERNATIONAL  
SOCIETY OF  
MICROBIOTA

NOVEMBER 10-12, 2021

**Dear Colleagues,**

On behalf of the members of the scientific committee, we are pleased to announce the 12<sup>nd</sup> International Conference on **Skin Ageing and Challenges** which will be held on November 10-12, 2021, in-person in Lisbon, Portugal, & Virtually. Skin Challenges 2021 is organized under the patronage of the International Society of Microbiota (ISM).

During Skin Challenges 2021, the Scientific Committee will allocate significant time to discuss the latest advances related to skin homeostasis and ageing. Our objective is to provide answers and to give a future vision and trends on how can the current researches delay the side effects of ageing and skin ageing.

As in previous years, a strong focus will be again to foster the exchange between academia, basic research and industry, and applied research. We will also provide more time and space to present the recent innovations, biotechnology products and devices.

During both days, many oral and poster communications will be presented and will cover many hot topics. A workshop dedicated to [Skin Microbiota](#) will be organized on November 10 2021. Among the sessions that will be discussed:

- *Skin Ageing, Regeneration & Wound Healing – State of the Art & Perspectives*
- *Skin Microbiota – Recent Scientific Advances*
- *Lifestyle, Diet and Skin Ageing: The Inside Beauty*
- *Artificial Intelligence & Skincare*
- *Skin Challenges 2021 Innovations*

As always, we are very much looking forward to meeting you in-person & online.

**Prof. Jean Krutmann,**  
President of Skin Ageing & Challenges 2021,  
IUF – Leibniz Research Institute for  
Environmental Medicine,
